By B. G. Davis, A. J. Fairbanks : Carbohydrate Chemistry (Oxford Chemistry Primers) p methoxybenzyl pmb or mpm group can be protected or deprotected under the same conditions as benzyl group it can also be deprotected under mildly oxidizing chemistry i 4 4 3 75 25 100 practical winchester 1967 genetics oxford ibh publications okazaki fragments rna primers enzymes of Carbohydrate Chemistry (Oxford Chemistry Primers):

0 of 0 review helpful Probably worth it By Hobinda It has some good basic information and it s short and easy to get through not daunting like most text books This book introduces the chemistry of carbohydrates a family of molecules that have a central role in metabolism This pivotal role in the biochemistry of life makes the study of carbohydrates important to both students of biochemistry and chemistry this class of compound can also be used to illustrate some of

the important principles of stereochemistry The text is written in a particularly attractive and informal style making it easy to read and follow Education in Chemistry May 2003 About the Author B G Davis is at Dyson Perrins Laboratory Oxford University A
