By Paolo Pelosi : On the Scent: A journey through the science of smell start here for a career in the world of fragrance what if you could discover and explore a whole new world of fragrance the iffisipca master of science scent

definition a distinctive odor especially when agreeable the scent of roses see more On the Scent: A journey through the science of smell:

In humans the perception of odours adds a fourth dimension to life from the scent of flowers the aroma of foods and all the subtle smells in the environment But how many types of odours can we distinguish Why do we like the food we like Which are the most powerful odorants and how well does the human sense of smell perform compared with that of a dog or a butterfly The sense of smell is highly complex and such complexity discouraged scientists for a lon
