Addictive Behaviors (Nato Science Series B:):

3 of 3 review helpful Excellent resource By Joan E Standora this is a wonderful compilation of writings on addictive behaviors by experts in the field It is readable and useful Great buy In the early 1980s the transtheoretical model of change was still in its infancy Seminal publications were just appearing but the model already seemed to hold such promise that we made it the organizing theme for the Third International Conference on Treatment of Addictive Behaviors ICTAB 3 which convened in Scotland in 1984 That meeting gave rise to the first edition of this volume Miller Heather 1986 which focused on processes involved in moving people from An excellent place to start for those interested in contemporary thinking in this area Journal of Studies on Alcohol on the First Edition Refreshingly optimistic an important reference book British Psychological Society
