By Karen C. Timberlake : Lab Manual for General, Organic, and Biological Chemistry (2nd Edition) carolina is proud to offer one of the most extensive lines of lab supplies and equipment in the industry online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback Lab Manual for General, Organic, and Biological Chemistry (2nd Edition):

0 of 0 review helpful I rarely studied for this course and got a B only because I suck at ORGO at the end of the

semester By Divesh Bhojwani Just tore out the pages I needed to hand in at the end of the semester I rather pay 30 to make my life easier If other students really want to save money you can find printouts of each lab online You just need to look very well Professor I had for basic chemistry class h This lab manual contains 42 experiments for the standard course sequence of topics in general organic and biological chemistry About the Author Karen Timberlake is professor emeritus of chemistry at Los Angeles Valley College where she taught chemistry for allied health and preparatory chemistry for 36 years She received her bachelor s degree in chemistry from the Univers
