By Dr. Mark S. Dworkin : Cases In Field Epidemiology: A Global Perspective 42011 global nursing health 42021 swollen mississippi river reaches mid south states and memphistn area 42031 flooding caused by non stop rain devastates a public health effort to eliminate all cases of poliomyelitis polio infection around the world begun in 1988 and led by the world health organization who Cases In Field Epidemiology: A Global Perspective:

1 of 1 review helpful Vignettes Show Lessons for Future Epidemiologists By Aaron F Dr Dworkin really loves this book The absolute only way to take his class EPID 594 Advanced Special Topics Outbreak Investigation is to read every chapter of this book Unlike most textbooks this textbook is a compilation of vignettes and each chapter teaches

specific lessons This book is more storybook like than textbo This collection of case studies some never before published uncover the details of actual disease outbreaks from within the United States and around the world At the conclusion of each chapter the investigator reviews the methods and processes that were employed to execute the investigation Ideal as a complement to any text on infectious disease epidemiology these case studies will bring to life the classic functions of field epidemiology and the application of epi
