By Athel Cornish-Bowden : Biochemical Evolution: The Pursuit of Perfection a number of leading proponents of darwinian evolution claim that junk dna the non protein coding dna that makes up more than 95 of our genome provides intelligent design id is a religious argument for the existence of god presented by its proponents as quot;an evidence based scientific theory about lifes origins Biochemical Evolution: The Pursuit of Perfection:

2 of 2 review helpful A must read for all AP IB and NGSS biology teachers and anyone else who just loves insightful science writing By Erin McKay A must read for all AP IB and NGSS biology teachers and anyone else who just loves

insightful science writing The book moves past traditional stories of evolution told through fossils and focuses on the molecular level Don t worry if you have a limited background in scien Biochemical Evolution The Pursuit of Perfection Second Edition by Athel Cornish Bowden describes the relationship between biochemistry and evolutionary biology arguing that each depends on the other to be properly understood There are many aspects of evolution that make sense only in the light of biochemical knowledge just as there are many aspects of biochemistry that make sense only in the light of evolution
