By Clare Cooper Marcus, Naomi A Sachs : **Therapeutic Landscapes: An Evidence-Based Approach to Designing Healing Gardens and Restorative Outdoor Spaces** dawn chan examines breakroom a virtual reality app developed by icelands mure vr that allows users to work while immersed in artificial worlds people have been bringing plants into residential and other indoor settings for centuries but little is known about their psychological effects
Therapeutic Landscapes: An Evidence-Based Approach to Designing Healing Gardens and Restorative Outdoor Spaces:

3 of 3 review helpful Excellent resource By Jenna Cook I would give this book an extra star if it were more complete in a couple of areas For me having a list of plant material that would be best per type of garden would be a nice to have I wonder if such a resource or book is available Next I know this is an evidence based approach to healing gardens and it does explore some possible reasons why gardens work the way This comprehensive and authoritative guide offers an evidence based overview of healing gardens and therapeutic landscapes from planning to post occupancy evaluation It provides general guidelines for designers and other stakeholders in a variety of projects as well as patient specific guidelines covering twelve categories ranging from burn patients psychiatric patients to hospice and Alzheimer's patients among others Sections on participatory design and funding This is an exceptionally well written well researched and well illustrated book on designing and creating therapeutic landscapes Rarely before has this topic been so thoroughly documented in one easy to read book that provides essential information to lands
