0 of 0 review helpful Outstanding reference book and guide By J DiNitto This text lays out a detailed framework for the use of enzyme kinetics in the drug discovery process Well written and informative covering the various drug binding mechanisms as well as an excellent chapter on tight binding inhibitors similar to the 1st edition The 2nd edition has a lot to offer over the 1st ed I found the new chapters with Offers essential guidance for discovering and optimizing novel drug therapies Using detailed examples Evaluation of Enzyme Inhibitors in Drug Discovery equips researchers with the tools needed to apply the science of enzymology and biochemistry to the discovery optimization and preclinical development of drugs that work by inhibiting specific enzyme targets Readers will applaud this book for its clear and practical presentations including its About the Author ROBERT A COPELAND PhD is Executive Vice President and Chief Scientific Officer at Epizyme Inc a biopharmaceutical company in Cambridge Massachusetts He is on the Editorial Board of The Journal of Biological Chemistry
