By Michael I. Gurr, John L. Harwood, Keith N. Frayn, Denis J. Murphy, Robert H. Michell : Lipids: Biochemistry, Biotechnology and Health description american journal of biochemistry and biotechnology covers studies of the chemical processes in living organisms structure and function of cellular definition and classification simple complex derived of lipids functions energy source essential nutrients hormones thermal insulator pheromones Lipids: Biochemistry, Biotechnology and Health:

For the 6th Edition of this highly regarded textbook devoted to lipids the title has been modified from Lipid Biochemistry to Lipids to acknowledge the coming together of biological and medical sciences the increasingly blurred boundaries between them and the growing importance of lipids in diverse aspects of science and technology

The principal aims of this new edition to inform students and researchers about lipids to assist teachers and encourage further research. From the Back Cover For the Sixth Edition of this highly regarded textbook devoted to lipids the title has been modified from Lipid Biochemistry to Lipids to acknowledge the coming together of biological and medical sciences the increasing!
