0 of 0 review helpful Practically Useless By COEpiStudent Bought this book for a GIS class in a MPH Epi program Terribly disappointed Can t even complete the tutorials for chapter one because the online material that it references and wants you to use to walk through the tutorial is no longer available online which entirely defeats the purpose of the tutorial Another tutorial wants you to use the online app but when GIS Tutorial for Health fifth edition teaches GIS and analysis skills to health professionals and students Using health care scenarios the book demonstrates how to

process and visualize health data to better manage services and support health care policy GIS Tutorial for Health includes lessons and exercises on mapping basics including creating map layers editing features and using spatial data The fifth edition is compatible with ArcGIS re About the Author Kristen S Kurland is a professor of architecture information systems and public policy at H John Heinz III College and School of Architecture Carnegie Mellon University where she teaches and researches GIS building information modeling B
