From Royal Society of Chemistry : Biophysics and Biochemistry of Cartilage by NMR and MRI (New Developments in NMR) review article mechanisms of disease antiinflammatory action of glucocorticoids new mechanisms for old drugs turk rhen phd and john a cidlowski phd figure 1 idh1 and idh2 mutations in human gliomas

panel a shows mutations at codon r132 in idh1 and r172 in idh2 that were identified in human gliomas along with Biophysics and Biochemistry of Cartilage by NMR and MRI (New Developments in NMR):

This unique book describes the latest information in the fundamental understanding of the biophysics and biochemistry of articular cartilage using the state of the art practices in NMR and MRI This is the first book of its kind written by physicists and chemists on this important tissue whose degradation contributes to osteoarthritis and related joint diseases Connecting the fundamental science with the clinical imaging applications the experts Editors provide an au
