on clinical virology and infectious diseases 10 plenary forums 2 days 1 event september 18 19 2017 houston texas usa
learn about types of bioterrorism and preparedness food supply vaccine bacterial agents ebola virus and disease
anthrax plague smallpox botulism tularemia Clinical Guide to Bioweapons and Chemical Agents:

The book will assist in the new public health response to the threats from bioterrorism and other public health disease
by combining established principles of disease management protocols with effective differential diagnosis algorithms
Although no single approach answers all of the challenges confronting our public health system this book fulfills many
of the requirements The author has collated the current diagnostic criteria for all health related bioterrorist t
