Species: Why We Resist the Truth About Climate Change:

8 of 8 review helpful Very scary book By Arissa Mr Hamilton does not sugarcoat He clearly sets forth the problem and then explores why we are so resistant to hearing about it His arguments are clear easy to follow and chilling I meet with adult friends regularly in bookclubs and dinner parties and climate change is an absolutely verboten topic When it does come up most present simply do not believe in it When I This book does not set out once more to raise the alarm to encourage us to take radical measures to head off climate chaos There have been any number of books and reports in recent years explaining just how dire the future looks and how little time we have left to act This book is about why we have ignored those warnings and why it is now too late It is a book about the frailties of the human species as expressed in both the institutions we built and the psychology Listen to this Requiem and weep if it helps False hope is as dangerous as despair But don't get mired in helplessness Above all Requiem is a call to arms to the urgent task of overhauling democracy in pursuit of survival At stake the biggest prize of
