0 of 0 review helpful Five Stars By Richard Sanchez easy to read and understand one of the best science books I own
0 of 0 review helpful wonderful book By Zhang L good examples relatively easy to understand it s a very good
entrance book to physical chemistry I didn t read the contents regarding biological science but should be interesting

also 0 of 0 review Hailed by advance reviewers as a kinder gentler P Chem text this book meets the needs of a one semester course or a full year course in physical chemistry It is an ideal choice for classes geared toward pre medical and life sciences students Or as stated in a May 2001 review in Journal of Chemical Education this text meets these students where they are and opens the door to physical chemistry from a perspective they can appreciate Physical Chemistry for the Chem A distinct and excellent publication worth recommending to biological chemists The Times Higher particularly well suited for those who want to pursue a course of study more focused on the biological sciences Journal of Chemical Education
