From Springer : Deep Learning and Convolutional Neural Networks for Medical Image Computing: Precision Medicine, High Performance and Large-Scale Datasets (Advances in Computer Vision and Pattern Recognition) artificial intelligence ai also machine intelligence mi is intelligence exhibited by machines rather than humans or other animals natural intelligence ni cs 101 introduction to computing principles 3 5 units introduces the essential ideas of computing data representation algorithms programming quot;codequot; computer Deep Learning and Convolutional Neural Networks for Medical Image Computing: Precision Medicine, High Performance and Large-Scale Datasets (Advances in Computer Vision and Pattern Recognition):

This book presents a detailed review of the state of the art in deep learning approaches for semantic object detection and segmentation in medical image computing and large scale radiology database mining A particular focus is placed on the application of convolutional neural networks with the theory supported by practical examples Features

highlights how the use of deep neural networks can address new questions and protocols as well as improve upon existing cha From the Back Cover This timely text reference presents a detailed review of the state of the art in deep learning approaches for semantic object detection and segmentation in medical image computing and large scale radiology database mining A particular focu
