Sample Preparation in Biological Mass Spectrometry:

The aim of this book is to provide the researcher with important sample preparation strategies in a wide variety of analyte molecules specimens methods and biological applications requiring mass spectrometric analysis as a detection end point In this volume we have compiled the contributions from several laboratories which are employing mass spectrometry for biological analysis With the latest inventions and introduction of highly sophisticated mass spectrometry equ Anal Bioanal Chem 2012 404 1331 ndash 1332 DOI 10 1007 s00216 012 6260 8 http www springerlink com content 7r2569j2175k81m2 Alexander R Ivanov Alexander V Lazarev Eds Sample preparation in biological mass spectrometry by David C Muddiman This bo
