platform for high quality peer reviewed full text journals The Psychological Basis of Perfumery:

During the many years of its publication and subsequent revisions Paul Jellinek s book has been the standard work on its subject This new edition translated into English for the first time was conceived in response to the increased interest in recent years in perfumes and the sense of smell This interest has come not only from within the highly competitive perfumery industry but also from psychologists and market researchers The original text has impre first class writers immensely challenging and stimulating Chemistry and Industry It is a long time since something has consumed my interest so much that I was unable t
