By Ellen Rosskam, Ilona Kickbusch : Negotiating and Navigating Global Health: Case Studies in Global Health Diplomacy Negotiating and Navigating Global Health: Case Studies in Global Health Diplomacy:

Diplomacy is undergoing profound changes in the 21st century and global health is one of the areas where this is most apparent The negotiation processes that shape and manage the global policy environment for health are increasingly conducted not only between public health experts representing health ministries of nation states but include many other major players at the national level and in the global arena These include philanthropists and public private players A From the Inside Flap Diplomacy is undergoing profound changes in the 21st century and global health is one of the areas where this is most apparent The negotiation processes that shape and manage the global policy environment for health are increasingly conduc
